

Downloading an Image or Purchasing A Print

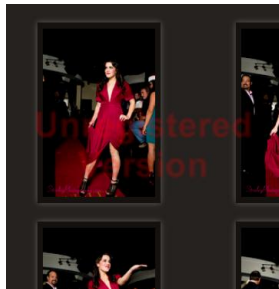

I have received a number of questions about how to download an image from my site – if you have trouble this should walk you through it! The process is mostly just a series of clicks – really it is.

Just follow these step by step instructions one time and you will understand the process easily.

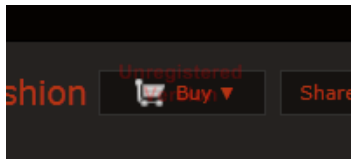

I am sorry this seems complicated at first.

Image quality - Downloads from this site are clearer and cleaner than the same image taken from FaceBook.

1. Select the image (s) you want to download by *Clicking* on it. Multiple images can be selected by holding down the Ctrl or Control key and clicking on each image

2. Next *click on the "BUY"* button – it changes position a bit but often looks like this and is in the upper right of the screen.

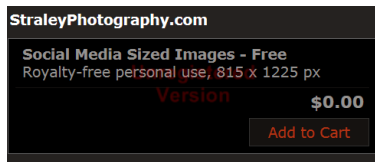

3. A screen will pop up and offer you some options – you can select whether you want downloads or prints. If you want a FaceBook sized or email size image *click on the Select button* next to *Social Media Images* – the prices you will be charged is clearly displayed.

All Products	StraleyPhotography.com		
Downloads	Social Media Sized Images - Free Royalty-free personal use, 815 x 1225 px (1:1)	0.00	Select
> Prints	High Resolution Images for Personal Use Royalty-free personal use,	35.00	Select
> Showcase			

4. If you want prints click on the *Prints* button and select the size and paper type etc. If the image is too low a resolution to print one of the larger prints it will tell you so – in this case contact me to discuss how I can help.

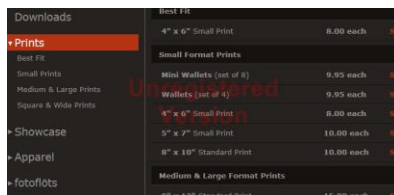

5. Once you make your selection this box will appear – [click on the Add To Cart](#) button

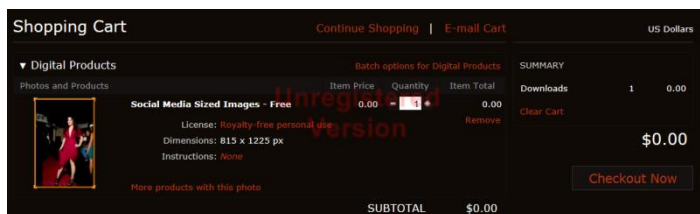

6. Next some options come up – If you are getting a download [click on Checkout Now](#)

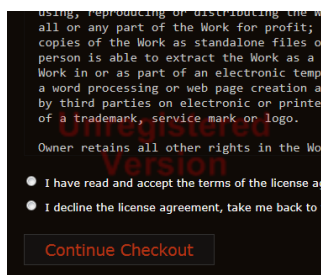

7. If you are getting a print this is where you select any cropping, print sizes, etc.

8. Then another box will come up and you need to [click on Checkout Now](#) (I know it is crazy but this is the way it works).

9. Then my licensing page comes up – there are certain restrictions on the use of an image depending on what you have selected for “purchase”. If you are downloading a social media sized image for instance you may not: crop it, remove my logo or use it commercially. In any event read the information and (assuming you agree) [click on the Acceptance](#) button. Then [click on Continue Checkout](#).

10. Next you will enter your name and other information. Then [click on Continue Checkout](#).

A screenshot of a web form titled "Enter your information". The form contains the following fields: "Full Name" with the value "Michael Straley", "Company" with "StraleyPhotography.com", "Phone Number" with "860-487-1081", and "E-mail Receipt to" with "michael@straleyphotography.com". A "Continue Checkout" button is located at the bottom of the form.

11. Finally you reach the *Place Order* screen – read this carefully to ensure you are getting what you want to at the price you expected – if your downloads are at NO Cost for instance, they will show up here as \$0.00 and you should not have any other charges. [Click on Place Order](#).

A screenshot of the "Place Order" screen. The page is titled "Order Summary" and "US Dollars". It shows a "SHIPPING CART" with "Downloads" (2 items) at "0.00" and "Shipping" at "0.00", resulting in a "TOTAL" of "\$0.00". There is a "Have a coupon?" section with a "COUPON CODE" input field and an "Apply" button. A "Place Order" button is visible at the bottom.

12. Next the download screen comes up and you are able to select the download path etc.

A screenshot of the download screen. It shows a "Payment" section with a "Total: \$0.00" and a "Billing" section with the name "Michael Straley" and email "michael@straleyphotography.com". There are buttons for "Print", "Continue Shopping", and "Download all purchased items". A large "Unregistered Version" watermark is overlaid on the page.

Enjoy your images – we sure made you work for them!
