

### **Introduction to StraleyPhotography at JAX Physique 2011**

Last year at JAX Physique 2010 we manned a photography shooting booth and had a simply wonderful time! We met a number of wonderful people and took some truly awesome images for them. Here are selected images from last year – please enjoy them! [link](#)

Outstanding people, incredible competition and a sincere thank you to the people who participated. The JAX Physique management is great to work with – real pros and very helpful!

This year we will also be using a photography booth to make outstanding images of the contestants and their friends!

We will be in entrance area of Lazarra Theatre at UNF the day of the event - so we'll be easy to find and you won't miss a thing in the competition! People will be able to watch you as you run through your routine while we make the images.

This year we have even better lights, better backdrops and expect to have even more fun! We are truly enthusiastic about this event and the people who participate. We're prepared to handle the large number of people expected to sign up for their individual sessions which can be scheduled by appointment on the day of the competition.

We invite you to sign up for a photography session in advance and to receive the discount we offer. Pricing [here](#)

### **Here are the details!**

We are offering individual photography sessions on the day of the show. Right now we are planning to be there shooting from 9AM until 10PM on March 26, 2011. If we have more demand we will expand our hours to accommodate you. Make sure you reserve your preferred time for the shoot IN ADVANCE if possible – if this is NOT possible we will give you priority access to the schedule the day of the shoot if we receive your deposit in advance.

Essentially you will have a few minutes to get set up while we check things like the color balance and exposure individually for you – to make certain it is perfect. You'll then run through your routine (or some routine at least) and we will take a number of images. Usually this takes 10 – 15 minutes and at the end of it you are welcome to bring in Mom, Dad, some friends – whomever for a couple of shots as well. We will capture images of you and them!

You will look your best! You will have fun and I plan to have fun too!

Your entire session should take 25 minutes or so and we will be scheduling appointments every 30 minutes. Sometime within the following week you will either receive a link to a web site where you can download the images or a CD with your images on it.

I guarantee the deliverables – they will be quality images – with great color, great lighting and also that there will be enough of them to satisfy. Each of the images will be suitable for printing, facebook, your portfolio, or any other similar use. If you need larger, higher resolution images, retouching or whatever – we will do this for you as a project.

Frame the one of you and your Mom! We can do that for you as well if you need us to!

To see other images I have taken – beautiful people, places and things go [here](#). Please note I am primarily a people photographer and shoot a wide range of personal and commercial projects.

If you would like images taken in advance, if you feel like you need more than 30 minutes of time, if you need specialty sessions – do not despair! Contact me here and discuss it with me!

I want to help, I want to shoot!

### **I WANT TO WORK WITH YOU!**
