Session overview and requirements

Please be on time for your appointment – better yet be there a bit early. All sessions on the day of the show are about 30 minutes end to end.

A model release is required for each participant we will shoot. I cannot make images of you without this signoff. I will also take a picture of your driver's license - please bring it! If you are under 18 **you must** be accompanied by a guardian or parent.

Studio sessions

I work out of a studio in JAX Beach. I can accommodate individuals or groups. I have great lighting and good backdrops - also it is private if you are concerned about noise and disruption. I also can travel to your location and will bring lighting with me.

I will work with you to accomplish your goals – you just need to help me to understand them.
